

**Development Application**  
**Town of Stowe Planning & Zoning Department**  
**PO Box 730**  
**Stowe, VT 05672**  
**Telephone: (802) 253-6141**  
**This form serves as an application for all requested zoning and subdivision reviews.**

**Project #**  
(To be assigned)

**Date Received:**

**Property Owner Information**

Property Owner	354 S Main Street, LLC	
Mailing Street Address City, State and Zip	PO Box 882, Stowe, VT 05672	
Telephone Number	802-881-6314	Email nickdonza@aol.com

**Applicant Information** (Relationship to Owner)

- ☒ Owner (If so, skip to property information)   ☐ Lessee   ☐ Contractor  
☐ Architect/Designer   ☐ Agent for Owner   ☐ Under purchase contract

***All information and correspondence is sent to applicant/contact.***

Applicant Name Company (if any)		
Mailing Street Address City, State and Zip		
Phone Number		Email

**Property Information & Location**

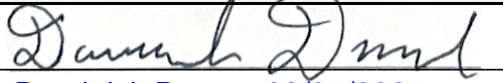

Physical Address	354 S Main Street	
Tax Map ID	7A-002.010	
Existing Use	retail	Proposed Use residential

**Please briefly describe the proposed project, intended use, and/or development request below:**

Redevelopment project proposing construction of a new 39-unit residential building on an existing lot. The new building will replace the prior use as a lumber retail shop.

**For All Approvals:**

The below signed hereby agrees that the proposed work shall be done in accordance with the application, plan, specifications, and other associated documentation and that the work shall conform to all applicable town ordinances and regulations. Signing as an "Agent for Owner" indicates that the person signing has the permission of the owner to act on the owner's behalf. Additional permits may be needed from the State of Vermont and/or the Town of Stowe for development.

Indicate if: <input checked="" type="checkbox"/> Property Owner OR <input type="checkbox"/> Agent for Owner	Signature:  Date: Dominick Donza, 03/05/2025
---	---

**Additional application information is required on reverse side: ➔**

**Note: Local Zoning approval does not cover any required state approvals. Wastewater System and Potable Water Supply permits may be required for construction or modifications that change the wastewater flow. Other State permits may be required for certain uses. The applicant is advised to contact a DEC Permit Specialist to discuss the State permit requirements at 802-505-5367.**

### Construction Information

A site plan showing the proposed development is required if construction is involved.

***The applicant is responsible for determining property lines and setbacks.***

**Please answer the questions below for all projects:**

Will there be a new curb cut (driveway opening)?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
Will over ½ acre of land be graded or disturbed?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
Will the development create an additional ½ acre of impervious surface?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
Will there be other changes resulting in increased sewer or water flows?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
Will there be a new connection to the Stowe sewage system?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
Will there be a new connection to the Stowe water system?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
Is any portion of the building rented out?	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
Is an Act 250 permit or amendment required?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>

Maximum Bldg. Height: 35' \* Building Height is defined as the vertical distance measured from the average elevation of the proposed finished grade at the front or rear of the building to the highest point of the roof for flat and mansard roofs, and to the average height between eaves and ridge for other types of roofs. On sloping sites the height will be measured on the uphill side.

**Please answer the questions below for all projects involving residential dwellings:**

Existing Rooms:	# Bathrooms:	# Bedrooms:	# Kitchens:
New Rooms:	# Bathrooms:	# Bedrooms:	# Kitchens:

***Please complete the fee calculation below for all applications:***

Zoning Permit Fees - Single & Two-Family Dwellings (Permitted Uses)	Fee/Sq. Ft.	Fee Required
Enclosed building spaces per sq. ft (heated & unheated)	\$0.30	
Unenclosed building spaces per sq. ft (i.e., decks, open porches, etc.)	\$0.10	
Structures other than buildings (i.e., ponds, tennis courts, fences, etc.) - per structure	\$60.00	
Minimum application fee for Single & Two-Family Dwellings/Permitted Uses	\$60.00	
<b>Fee:</b>		<b>\$</b>
Zoning Permit Fees - Conditional Uses (Commercial & Multi-Family Uses)	Fee/Sq. Ft.	Fee Required
Enclosed building spaces per sq. ft (heated & unheated)	\$0.40	
Unenclosed building spaces per sq. ft (i.e., decks, open porches, etc.)	\$0.25	
Structures other than buildings (i.e., ponds, tennis courts, fences, etc.) - per structure	\$100	
Administrative amendment by Zoning Administrator	\$75.00	
<b>Fee:</b>		<b>\$</b>
Development Review & Public Hearing Fees	Fee/Sq. Ft.	Fee Required
Appeal of Action of Zoning Administrator	\$250.00	
Variance or Dimensional Waiver	\$250.00

*The Town of Stowe welcomes all persons, regardless of race, color, religion, national origin, sex, gender identity or expression, family status, age, or ability, and wants everyone to feel safe and welcome in our community. As a town, we formally condemn discrimination in all its forms, commit to fair and equal treatment of everyone in our community, and will strive to ensure all of our actions, policies, and operating procedures reflect this commitment. The Town of Stowe has and will continue to be a place where individuals can live freely and express their opinion.*

## **Mill Village Apartments**

354 South Main St, Stowe

### **Historic Preservation Commission – Project Narrative**

3/5/25

The proposed project is for a 3-story apartment building at 354 South Main St. The property is off Route 100, behind the Stowe Public Safety building, along the Little River and across from the Town Highway Garage. There is an existing building on the property that was previously used as a warehouse and lumber yard. The existing building has no historic value and will be demolished. The proposed building includes a below-grade parking garage, 39 apartments in a mix of 1-bedroom and 2-bedroom units and surface parking along the reconstructed driveway.

The building is designed to improve the overall look of the neighborhood and provide much needed housing in the area. It is oriented on the property in a way that limits its visibility from Rt 100. The length of the building is broken down into bays, alternating between brick bump-outs and clapboard recesses. In addition, the bays are broken down with trim, corner bump-outs and a change in material at the upper floors of the brick bays. An entry canopy & projecting stair tower help to identify the main entrance as well as break the building in half. The Owner desires to create rhythm in the facade as well as a certain amount of symmetry within the design. Due to the placement of the building behind the Public Safety building and along a sloping drive to adjacent properties the building façade is typically always perceived at an angle and not straight on.

The proposed materials were chosen to complement adjacent buildings as well as being chosen for their durability. In addition, the density of the brick walls will help in providing acoustic separation between the adjacent Town Garage and housing units. The property location allows for a more modern and industrial aesthetic in the design while using materials and details that are human scaled and reflective of other materials in the area. There is a mix of window patterns and styles including double-hung windows with muntin's and casement and transom windows. The scale of the building is true to its use while the break-up of massing and materials helps to scale down the building.

Specification Sheet

**Allegra**  
Allegra Medium

Project Name \_\_\_\_\_ Qty \_\_\_\_\_

Type \_\_\_\_\_ Catalog / Part Number \_\_\_\_\_

**Distributions**

Type II, Type III, Type IV, Type V Square

**Description**

The Allegra Medium is a durable, stylish luminaire for urban lighting applications, including pedestrian plazas, residential streets and collector roads. Offering a choice of outputs, color temperatures, and distributions, the Allegra Medium is elegantly personalized.

**Features**

**Color and Color Temperature** 2200K, 2700K, 3000K, 3500K, 4000K, 5700K

**Distributions** Type II, Type III or Type IV (with or without backlight shield), Type V square and Type V Softie

**Option** Corrosion-resistant Coating for Hostile Environments, Surge Protector

**Mounting Options** Pendant Medium (4-8ft Tenon Adaptor), Side Internal (2 3/8 in Tenon)

**Warranty** 5-year limited warranty

**Performance**

**Output (Nominal Lumens)** Minimum 3000lm / Maximum 17000lm

**Color Rendering** 3 SDCM for CRI 70+ and 2 SDCM for CRI 80+

**Lumen Maintenance** TM-21 L70 527,000 hrs (projected, to 77 °F), 34,000 hrs (reported, to 77 °F)

**DarkSky** DarkSky Approved (2200K, 2700K and 3000K color temperatures, BUG rating of 0)

**Physical**

**Housing Material** Die cast low copper 360 aluminum alloy

**Lens Material** Optical tempered clear glass (Clearlite lens), Optical tempered opal glass (Softie lens)

**Weight** Up to 35 lbs

**Control**

ON/OFF 0-10V

**Rating**

IP65 (optical chamber)

**Certifications**

UL ETL

\*Photometric performance is measured in compliance with IESNA LM-79-08. Due to rapid and continuous advance in LED technology, photometric information is subject to change without notice.

Optical System

LED board size

Small (4000lm to 6000lm)

Medium (8000lm to 15000lm)

Large (17000lm)

Type V Softsite is available with large LED board only (3000lm to 7000lm).

Backlight Shield\*

\*Small, Medium and Large LED boards size have the same full coverage backlight shield pieces.

\*Backlight shield available with Type II, Type III and Type IV only.

\*Backlight shield is factory installed.

Typical Wiring Diagrams

Wiring Color Code

Color	Black	White	Green	Purple	Gray
Use	Line	Line/Neutral	Ground	0 -10V+	0 -10V -

On/Off Control (NO)

- A - Power input (120-480V, wiring by others)
- B - Conduit (by others)
- C - Power wiring (by others)
- D - Allegra medium

On/Off Control (NO) - Wiring Detail

- A - To fixture
- B - Line
- C - Line/Neutral
- D - Ground
- E - Not required
- F - Wire-nuts (by others)
- G - Conduit (by others)
- H - To next fixture
- I - Power input or from previous fixture

- Consult factory for specific applications and maximum fixture count/cable length recommendations.

## 0-10V Dimming (DIM)

- A - Dimmer (by others)
- B - Data wiring (by others)
- C - Power input (120-480V, wiring by others)
- D - Conduit (by others)
- E - Power and data wiring (by others)
- F - Allegra medium

## 0-10V Dimming (DIM) - Wiring Detail

- A - To fixture
- B - 0-10V +
- C - 0-10V -
- D - Line
- E - Line/Neutral
- F - Ground
- G - Wire-nuts (by others)
- H - Conduit (by others)
- I - To next fixture
- J - Power input and from third party dimmer or from previous fixture

- Consult factory for specific applications and maximum fixture count/cable length recommendations.
- 0-10V mA ratings: passive dimmer (Current Sink): 3mA per fixture, active dimmer (Current Source): 0.5mA per fixture.
- 1% minimum dimming value.

## Mounting Options

### P4 - Pendant Medium (4-Bolt Tenon Adaptor)

- A - Decorative Arm
- B - 4-Bolt Tenon Adaptor
- C - Luminaire
- D - (4x)  $\varnothing 3/8$  in x 1 in Bolt (included with luminaire).  $\varnothing 3/4$  in Bolt Circle

### S12 - Side Internal (2 3/8 in Tenon)

- A - Decorative Arm
- B - S12 Tenon Adaptor
- C - 3/8-16 Bolt and Lock Washers
- D - Luminaire

P4 - Pendant Medium (4-Bolt Tenon Adaptor) Arm Style Dimensions

DT6 Arm Style

CS2 Arm Style

CS4 Arm Style

CS6 Arm Style

CS12 Arm Style

CS13 Arm Style

MC5 Arm Style

- Mid-pole/mid-luminaire distance is bases on 4 in pole (add 1/2 in for 5 in pole and 1 in for 6 in pole).

- Notes:
1. Consult Related Products section on webpage for a selection of compatible decorative arms, decorative poles (sold separately).

2. Available with S40, S60, M80, M110, M150 and L170 output option only.

3. Available with types 2, 2BLS, 3, 3BLS, 4, 4BLS and 5S distribution only.

4. Available with L30, L50 and L70 output options only.

5. Available with type 5 distribution only.

6. Available up to 277V.

7. Consult factory for more color temperature options.

8. Available for CRI 80 only.

9. Binning within a 3-step MacAdam ellipse, with the exception of 5700K.

10. Binning within a 2-step MacAdam ellipse, with the exception of 2200K and 5700K.

11. Specify RAL number followed by "TX" for textured finish (ex: RAL9007TX) or STX for Sandtex finish (ex: RAL9007STX). Textured or Sandtex finishes are recommended for the durability of all products. If a finish is not specified with the RAL number (ex: RAL9007), a glossy finish will be provided. Please consult factory for other RAL textures and glosses, or to match alternate color charts. Final color matching results may vary.

12. Setup charges apply for RAL colors. Consult factory for details.

13. Longer lead times can be expected for custom RAL color finishes.

14. DIM control can be used as NO (On/Off control) if no data is required.

15. Use only when exposed to salt spray. This option is not required for normal outdoor exposure.

16. Setup charges apply. Consult factory for details.

- Notes:
1. Refer to website product configurator for all exceptions.

2. Refer to website for EZ Ship configurations.

3. Refer to website for ENERGY STAR certified product configurations.

4. Not available for 700 lumens. Not available for 1000 lumens when combined with 80 color rendering option.

5. Not available for XN and VN optics.

6. Not available for DTW, DTWP, DWH, DWW or DWWP color options.

7. Not available for ENERGY STAR certification.

8. For ENERGY STAR certification, not available with RM or NC installation types when combined with 90 color rendering option.

9. Available for M, MFR, W, WFR, VW and VWFR optics only.

10. Not available with PC, IC, IC/AT or RMR installation types.

11. Available for CRI 80 only.

12. Compatible with all control options except for DALI8.

13. Available for 1000 and 1300 lumens when combined with 90 color rendering option and MFR, W, WFR, VW or VWFR optics only.

14. MFR, WFR and VWFR faceted reflector optics are recommended for optimal performance.

15. Compatible with DA1, SDALI1, SDALI2, DMX/RDM and LT control options only.

16. Available for 1300 lumens when combined with 80 color rendering option and MFR, W, WFR, VW or VWFR optics only.

17. Compatible with LT, DMX/RDM and DALI8 control options only.

18. Available for 700 lumens when combined with 80 or 90 color rendering options and 27K, 30K, 35K or 40K color temperature options only.

19. Available up to 1300 lumens when combined with 80 or 90 color rendering options and 27K, 30K, 35K or 40K color temperature options only.

20. Available up to 1300 lumens when combined with 80, 90 or 95 color rendering options only.

21. Available up to 2000 lumens when combined with 80 color rendering option and up to 1300 lumens when combined with 80, 90 or 95 color rendering options only.

22. Available up to 3000 lumens when combined with 80 color rendering option and up to 2000 lumens when combined with 80, 90 or 95 color rendering options only.

23. Control options vary according to color temperature, color rendering, optics and installation type combination. Refer to website product configurator for details.

24. Manufacturer's choice driver. Order code may change to NO1.

25. Not available with 347V.

26. Not available for 3000 lumens.

27. Manufacturer's choice driver. Order code may change to DAMC1 or DAMC2.

28. Not available for XN and VN optics.

29. Driver cuts off power to the fixture when the control signal drops below 0.5V.

30. Manufacturer's choice driver. Order code may change to PH1 or PH2.

31. Available for 120V voltage option only.

32. Manufacturer's choice driver. Order code is subject to change.

33. Not available for 700 lumens.

34. Not available for M, MFR, W, WFR, VW and VWFR optics when combined with 1000 lumens.

35. One EcoSystem® address per fixture. Lutron® EcoSystem® Enabled dimming not available for 1300 lumens combined with VN optic. Available for static white color temperatures only.

36. Not available for 3000 lumens.

37. Available for DWH, DWW and DWWP color options only. DALI-2 Type 8 controller required.

38. Not available for PC, IC or IC/AT installation types.

39. Configurable between 8 or 16-bit dimming control via RDM. DMX/RDM requires LumenID, LumenID software and onsite commissioning.

40. A Control Box (CBX-DS or CBX-ST) and lumenID (LID) must be specified.
41. A Lumentranslator 2 (LTL2) and LumentalkID (LIDL1) must be specified for Lumentalk applications. Consult Lumentranslator 2 and Lumentalk pages and specification sheets for details.

42. 1% minimum dimming value.

**36.** Not available for 3000 lumens.

**43.** For ENERGY STAR certification, not available with MB, DB and DR decorative bezels when combined with RM or NC installation types or PC, IC and IC/AT installation types when combined with 90 color rendering option.

**44.** For ENERGY STAR certification, not available with MB, DB and DR decorative bezels when combined with RM or NC installation types.

**45.** For ENERGY STAR certification, not available with MB, DB and DR decorative bezels.

**46.** Coming soon, consult factory for details.

**47.** Available with DB and DR Bezels only.

**48.** Longer lead times can be expected for custom RAL color finishes.

**49.** Refer to Cylinder specification sheet and brochure for color options.

**50.** Not applicable to DR bezel option.

**51.** Cannot be combined with square ceiling cutout.

**52.** Cannot be combined with round ceiling cutout.

**53.** Available for 700 lumens when combined with XN optic and up to 1300 lumens when combined with VN, NS and N optics. Available up to 2000 lumens when combined with NFR optic and up to 3000 lumens when combined with M, MFR, W, WFR, VW and VWFR optics. Refer to optic option notes for color rendering limitations.

**54.** Available for 700 lumens when combined with XN optic and up to 1300 lumens when combined with VN, NS, N and NFR optics. Available up to 2000 lumens when combined 80 color rendering option and M, MFR, W, WFR, VW and VWFR optics. Refer to optic option notes for color rendering limitations.

**55.** Not available for DWH, DWW or DWWP color options.

**56.** Remote distance is a maximum of 75 ft. For longer remote distances, please contact Lumenpulse Application Engineering Team for application validation.
- 57.** Ceiling springs are field changeable, consult factory and installation instructions for details.

**58.** IP54 rating only if installation is interior covered recessed ceiling-mounted or exterior canopy-mounted.

**59.** DR bezel is recommended for outdoor canopy installations.

**60.** A CL, SL or PD must be specified to maintain an IP54 rating. A second accessory may be specified.

**61.** For ENERGY STAR certification, not available with RM or NC installation types when combined with 90 color rendering option combined and 2000 lumens.

**62.** Available for RM and NC installation types only.

**63.** Emergency battery backup options are field installed and not presided by Lumenpulse. Refer to related installation instructions for details.

**64.** Emergency battery backup options require ceiling access for test button use. The battery will operate for 90 minutes minimum and maintain a minimum of 1 fc from a 7 ft 2 in height as per UL 924. For indoor use only in dry or damp locations.

**65.** Maximum two accessories per fixture.

**66.** Not available for DTW and DTWP color options.

**67.** Available for XN, VN and NS optics only.

**68.** Can be combined with PD accessory only.

**69.** Recommended to be combined with HL or XLVR accessory only.

**70.** Recommended for XN, VN, NS, N and NFR optics when combined with 2200K, 2700K, 3000K, 3500K, 4000K color temperature options. Nominal 10° x 40° distribution when used with the NS optic. Recommended for MFR optic when combined with DTW, DTWP, DWH, DWW or DWWP color options only.

**71.** For optimal performance, it is not recommended to mix with other accessories.

**72.** Recommended for XN, VN, NS, N and NFR optics when combined with 2200K, 2700K, 3000K, 3500K, 4000K color temperature options only. Nominal 10° x 60° distribution when used with the NS optic. Recommended for MFR optic when combined with DTW, DTWP, DWH, DWW or DWWP color options only.

Description

The Lumenpulse Lumenblade Nano is an outdoor LED luminaire that uses a rectilinear version of the Lumencentro light engine to create a continuous line of light. Side Mount or Wall Mount options are available. Its seen-but-not-seen, minimalist design is sustainable, blends with both contemporary and heritage architectures, provides a high level of security, and is sensitive to the natural environment with DarkSky approval, low outputs, and with a BUG rating of 0.

Features

Mounting	Side Mounting, Wall Mounting
Color and Color Temperature	True Amber 585nm-595nm (Turtle-Friendly), 2200K, 2700K, 3000K
Distributions	Type II, Type III or Type IV (with or without backlight shield), Type V, Type V square
Optical Option (factory installed)	Louver
Vibration Rating	Meets ANSI C136.31-2018 vibration rating for Bridge & Overpass applications
Option	Vibration Rated for Bridge and Overpass Corrosion-resistant Coating for Hostile Environments
Warranty	5-year limited warranty
Performance	
Output (Nominal Lumens)	Minimum 200lm/ Maximum 2500lm
Efficacy	Up to 127 lm/W (XS10 lumen output, 3000K, CRI 80 , Type VS)
Color Rendering	3 SDCM for CRI 70+, 2 SDCM for CRI 80+ and CRI 90+
Lumen Maintenance	TM-21 L70 > 145,000 hrs (reported, Ta 25 - 50 °C [77 - 122 °F])
DarkSky	DarkSky Approved (2200K, 2700K, 3000K and Amber color temperatures, BUG rating of U0)

DarkSky Certification

Certifications

Physical

Housing Material	Extruded aluminium 6000 alloy series
Lens Material	Optical tempered clear glass (Clearsite lens), Optical tempered frosted glass (Frostsites lens), Optical tempered half-frosted glass (Half-Frostsites lens)
Surface Finish	Super durable resistant exterior polyester powder coating meets AAMA 2604-98 requirements (5-years Florida exposure). A corrosion resistant finish (CRC) pre-finish is available to meet ASTM B-117 & ASTM D-1654 (salt spray resistance) and ASTM D-2247 requirements (humidity resistance).
Weight	1.87 lbs to 4.84 lbs, refer to EPA and fixture weight tables for details

Electrical and Control

Voltage	120 volts, 208 volts, 240 volts, 277 volts
Control	On/Off Control, 0-10V Dimming

Environmental

Storage Temperature	-40°C to 50°C [-40°F to 122°F] (device must reach start-up temperature value before operating)
Operating Temperature	-40°C to 50°C [-40°F to 122°F]
Start-up Temperature	-25°C to 50°C [-13°F to 122°F]
Ingress Protection Rating	IP66 (optical chamber) Wet location rated
Impact Resistance Rating	IK06 (glass lens) IK10 (frame) *IK10 polycarbonate lens option available, consult factory
Environment	Dry/damp/wet location

				XS20 2000lm (8 LEDs)					CC Custom Color & Finish <sup>(17)</sup> (18) (19)		
				XS25 2500lm (8 LEDs)							

- Notes:
1. Available with all pole mounting options.

2. Available with WH2, WH4 and WHSJB adaptors only.

3. When combined with CSL lens, only AMB color temperature is available.

4. Available with Type 2, 3 and 4 distributions only.

5. Standard IK06 rating for glass lens. IK10 rated polycarbonate lens available, please consult factory.

6. Not available with type 5 distribution.

7. Available with type 3 and 5 distributions only.

8. Available for N03, N05, N07 and N10 outputs only.

9. Lumen output will vary according to the lens and distribution specified for the fixture. Please consult the photometric information section of the specification sheet for more details.

10. Available with AMB color temperature only.

11. Not available for FSL and HFSL lens.

12. Binning within a 3-step MacAdam ellipse

13. Binning within a 2-step MacAdam ellipse, with the exception of 2200K.

14. Binning within a 2-step MacAdam ellipse.

15. Available with CSL and HFSL lenses only.

16. Factory installed.

17. Specify RAL number followed by "TX" for textured finish (ex: RAL9007TX) or STX for Sandtex finish (ex: RAL9007STX). Textured or Sandtex finishes are recommended for the durability of all products. If a finish is not specified with the RAL number (ex: RAL9007), a glossy finish will be provided. Please consult factory for other RAL textures and glosses, or to match alternate color charts. Final color matching results may vary.

18. Longer lead times can be expected for custom RAL color finishes.

19. Setup charges apply for RAL colors. Consult factory for details.

20. DIM control can be used as NO (On/Off control) if no data is required.

21. Vibration tested in accordance with ANSI 136.31 2018 for bridge and overpass applications at 5Gv.

22. Specify only if a bridge or overpass application is required.

23. Not available for WHSJB mounting adaptor.

24. Use only when exposed to salt spray. This option is not required for normal outdoor exposure.

25. Setup charges apply. Consult factory for details.

How to Order

Mounting Adaptor
<b>RPA6N</b> Round Pole Adaptor for Ø6 in Pole
<b>SPA6N</b> Square Pole Adaptor for Ø6 in Pole
<b>RPA8N</b> Round Pole Adaptor for Ø8 in Pole
<b>SPA8N</b> Square Pole Adaptor for Ø8 in Pole
